CARP Membership application and information on the following page...

The Brockville & 1000 Islands CARP Chapter

Serving our community....

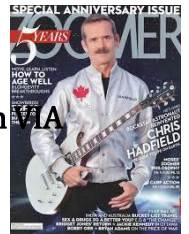

Our adult population today is aging at an accelerated pace which presents new opportunities and challenges for communities across the country. The Brockville, Thousand Islands CARP Chapter is one of sixty non-profit, non-partisan chapters across Canada led by a volunteer board dedicated to developing partnerships, supporting like-minded organizations and promoting new initiatives such as the World Health Organizations Age Friendly Communities initiative. Our chapter is committed to educating and engaging our over 900 members in Leeds Grenville so that together we can make our community one of the best places in Canada to grow up and grow older.

Our chapter is sustained through fundraising events and financial support from our sponsors and partners. In addition, we receive a royalty for new members and membership renewals. All funds are re-invested back into our local community.
